Dear Dr. Weinstein:

    Mr. Dulles has asked me to thank you for your letter of 16 May and 13 November and for their enclosures.

    The information which you have forwarded has been reviewed and it has been determined that it duplicates that already on hand. However, your efforts in making it available are greatly appreciated.

                              Sincerely,

                              SIGNED

Dear Sir:
           This and similar material is sent to me

from time to time by former patients of mine in

Venezuela with the request that I forward it to

proper authorities in United States.

           Is it on any value? Shall I continue to send

It on or file it in file 13? I have several times

sent in such clippings without acknowledgement.

                              Respectfully yours,

                              ⟨signature⟩
